uniflex/big uniflex Bay Dimensions

- High quality European coated fabric – standard material for roof panels, gable ends and sidewalls.
- Kedered roof fabric and sidewalls provide weather tight coverings without lace lines or rain flaps.
- Push down roof tensioning system:
 - Holds valances in place
 - Provides straight, clean appearance
 - Seals tent for improved air conditioning and heating efficiency
 - Eliminates unsightly web and ratchet straps at each upright.

Versatile – strong – dependable

- Slide back sidewalls remain on the tent
 - Sidewalls are in place at all times
 - Unzip and slide back to open
 - Slide together, zip to close.
- Variety of sidewall window pane designs available.
- Gable end roof vents available.
- Enclosure system includes:
 - Glass windows
 - Cassette hardwalls
 - Double door kits.
- Drop-in self-locking, hardwood cassette flooring available.
- Storage and transportation pallets available for glass windows, door kits, cassette walls.
- Liners and interior draping accessories.
