

RHN Light-weight Inflatable Shelters

Lightweight, rapid response inflatable shelter

RHN inflatables feature the exclusive Losberger “plug-in & go” internal inflation system, therefore eliminating the need for any addition exterior pumps or hoses. As a result, the RHN is the fastest erecting inflatable shelter on the market and a perfect fit for all emergency responders.

Product description:

For more than 40 years, Losberger RDS has been producing air-supported frame shelters for Emergency Responders and the Military alike. The RHN series can be fully erected by 1 or 2 people in less than 5 minutes.

This lightweight, medium-duty shelter is very robust and can be staked or weighted and comes with a complete line of accessories.

The standard internal inflator also provides constant air pressure monitoring of the frame for worry-free install and use. The exclusive air-tight zipper system provides unmatched speed of deflation allowing for quick removal and packing.

The RHN is a weather tight, wind resistant shelter system that comes with a durable, flame-resistant, polyester fabric cover. It has an integrated and removable floor and pre-fitted guy lines. Multiple shelters can be connected to increase square foot usage.

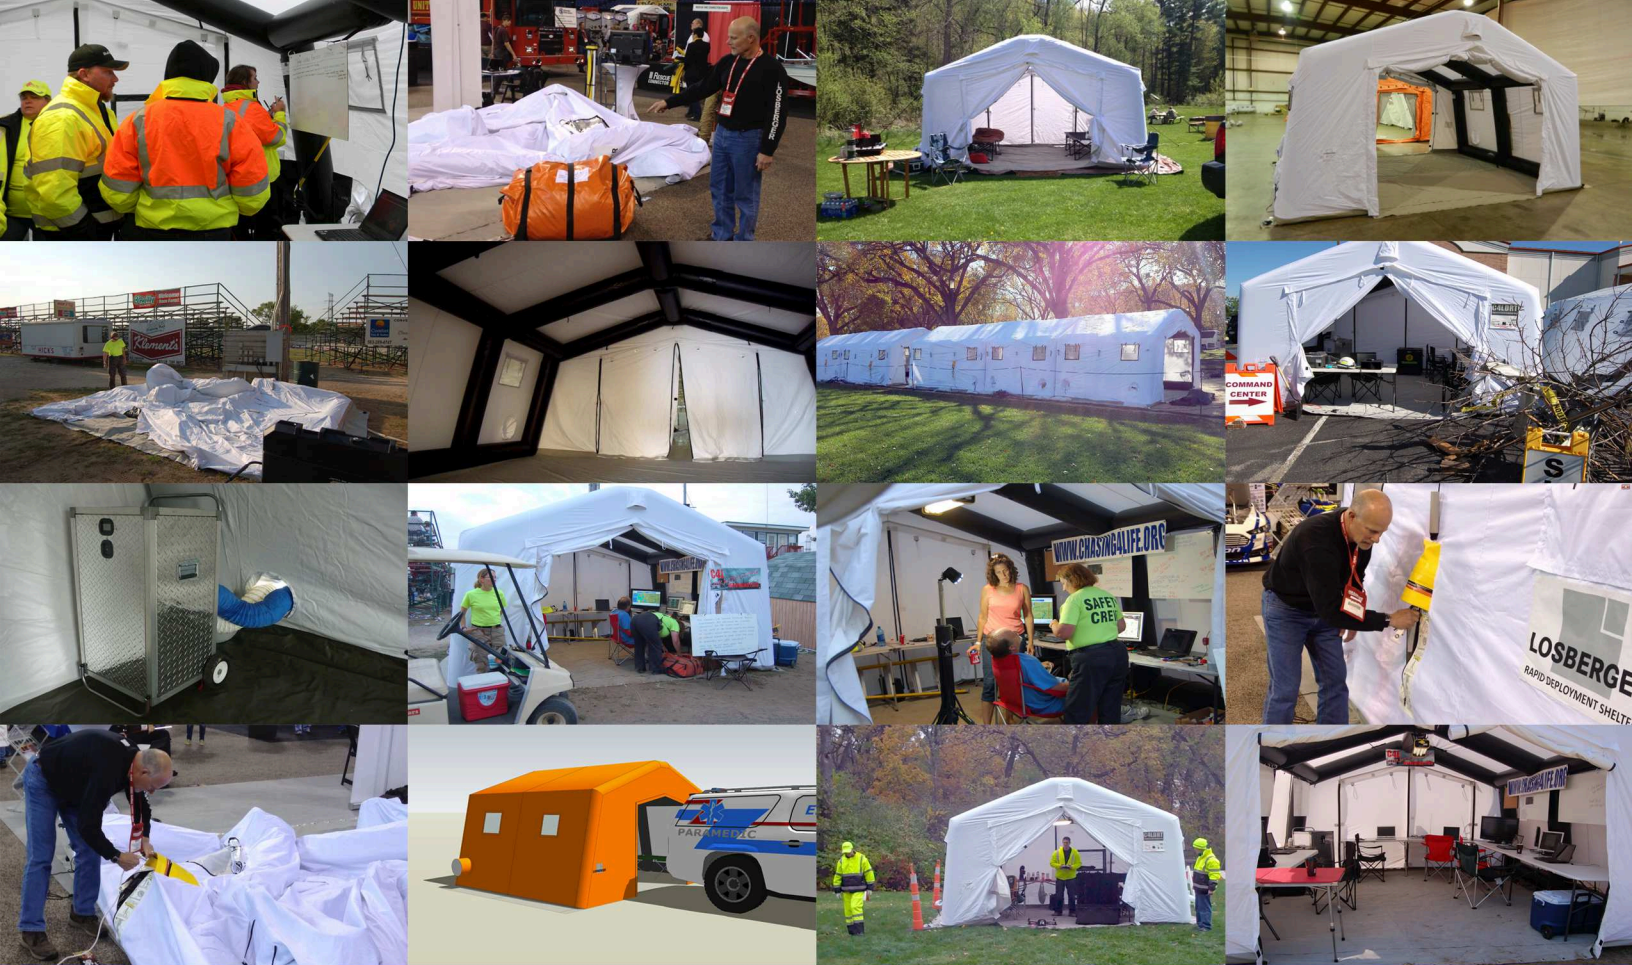

Standard features:

- Built-in electrical inflator
- Modular inflatable frame with double inflation/deflation valves and over-pressure valves
- Wide opening doors with triple zippers and water barrier
- Pre-fitted docking zippers around doors
- Heavy-duty and non-slip PVC coated removable fabric floor, allowing the shelter to be picked up and placed over an accident site when fully inflated
- 4 windows, 3-way system with both mesh and clear PVC covers
- 2 duct openings, one on each side, for entry of HVAC unit
- Equipment hanging loops
- Pre-fitted guy ropes

Fabric colors:

- White
- Orange
